

Terminal 4 Early Action Sediment Cleanup Public Comment Invited

The U.S. Environmental Protection Agency (EPA) invites your comments on four alternatives for cleaning up contaminated river sediments at the Port of Portland's Marine Terminal 4 on the Willamette River. Terminal 4 is part of the Portland Harbor Superfund site.

The alternatives are described in a document called an Engineering Evaluation/Cost Analysis (EE/CA). It is available for review and downloading on the EPA website: <http://yosemite.epa.gov/R10/CLEANUP.NSF/sites/T4>.

Hard copies of the EE/CA are also available for review at the Multnomah County Central Library in downtown Portland and the St. Johns and Northwest branch libraries. You can obtain a CD copy from **Judy Smith**, EPA Community Involvement Coordinator, by calling **503-326-6994** or at smith.judy@epa.gov.

You can submit written comments about the EE/CA to **Sean Sheldrake** at 1200 Sixth Avenue, ECL-117, Seattle, WA 98101-1128 or e-mail: sheldrake.sean@epa.gov. Comments must be received or postmarked **by July 8, 2005**.

You may offer verbal comments at a public hearing:

St. Johns Community Center
8427 N. Central
Thursday, June 23, 2005, 6:00 p.m.

TTY users, please call the Federal Relay Service at 800-877-8339 and ask for Judy Smith, 503-326-6994.
